Common Council File No. 031566 is a resolution from the Health Department relative to the acceptance and funding of the Fight Asthma Milwaukee Allies Grant. This continuing grant is funded by the by Children's Health Systems through the Children's Hospital of Wisconsin.

One of the new strategic goals of the Health Department's Home Environmental Health program is to reduce the incidence of asthma related hospitalization, particularly in children under the age of 17. This grant enables the department to establish a close working relationship with asthmatic children seen in the Children's Hospital Emergency room. The effort will lead to an increased ability of Home Environmental Health staff to understand the causes and case management of children with severe asthma. This grant should contribute to a reduced incidence of asthma related hospitalizations in Milwaukee.

Several other indicators will also be used to monitor the success of this program including the number of families eligible for services, those who successfully receive case management agencies, the reduction in emergency room visits and the results of the Quality of Life survey tool for asthmatic children and their parents. Care coordination, a process of reviewing families for need, educating them about services to be provided, obtaining informed consent, and referring them to a case management provider will be used to facilitate the success of the program.

The grant period is from January 1, 2004 through December 31, 2004. The total grant amount is \$98,387. The Grantor share is \$73,975 (75%) with a city match of \$24,412 (25%). The grantor share funds a Health Project Coordinator and Office Assistant II; the city portion partially funds the Home Environmental Health Manager, a Public Health Nurse, and an Epidemiologist.

**RECOMMENDATION: APPROVE COMMON COUNCIL FILE NO. 031566 WHICH AUTHORIZES THE HEALTH DEPARTMENT TO ACCEPT AND FUND THE FIGHT ASTHMA MILWAUKEE ALLIES GRANT FROM CHILDREN'S HEALTH SYSTEMS.**
