Hi Chris,

We received this email in our general Plan Admin email account. Can this please be added to the record?

Thanks,
Kristin

Subject: Master Lock Zoning File No. 190526

My name is Monique Patterson. I own property address 2468 North 33rd Street.

I can not make the meeting on Tuesday, September 17, 2019.

I am writing regarding Master Lock Zoning.
Master Lock shares an alley with my property. Master Lock landscape on its side of the alley is terrible. The bushes are so much in the alley that it is scratching my Hummer when I drive down the entire alley.

I am asking that the City of Milwaukee holds them accountable for there landscaping. Also, I suggest installing cameras because someone is continually to dump debris on Master Lock side of the alley and a City of Milwaukee distress property.

Please let all of us work together to build a better City.

Thank you for your time
