

To the Honorable
Common Council
City of Milwaukee

Attention: Mr. Robert Harvey

Dear Council Members:

The Capital Improvements Program contains a Purpose Account, Communications and Control, from which funds are allocated to the Paving Related Projects, City-Wide Telephone System Expansion and Improvements, General Engineering, and Transmission Plan Expansion. This allows the maintenance, expansion, and improvement of the City's communication system to go forward by correcting the four subaccount numbers.

I, therefore, respectfully recommend the adoption of the attached substitute resolution which reallocated funds from the parent Communications and Control Purpose Account to the above mentioned new sub-accounts.

Sincerely,

JAMES C. KAMINSKI
Commissioner of Public Works
