

Milwaukee Overdose Response Initiative (MORI)

HEO/PM JONATHAN BELOTT
MORI SUPERVISOR
MILWAUKEE FIRE DEPARTMENT

MORI – Initial Metrics

- ▶ Patients identified through MFD Dispatch and EMS data
- ▶ Actual contacts made from data
- ▶ Patient transported to treatment
- ▶ Resources delivered (harm reduction items/information etc.)
- ▶ Reported overdoses within 30 days post contact
- ▶ Pharmacist interventions
- ▶ Drug disposals
- ▶ Patients that are or are not insured

Case Study #1

- ▶ 27 y/o male
- ▶ Overdosed 2 days ago
- ▶ Initial family resistance
- ▶ Patient initiated 2nd visit request for following day

Case Study #2

- ▶ 64 y/o male
- ▶ Partnership with iCare and CP
- ▶ Patient in long term care at WAM
- ▶ Violated parole
 - ▶ Worked with PO for solution
- ▶ Working on Residential treatment facility with iCare
- ▶ Total collaboration

Case Study #3

- ▶ 38y/o male overdosed while behind the wheel
- ▶ Initially met with parents
- ▶ Scheduled meeting with patient
- ▶ Provided education on treatments (methadone)
- ▶ County came to the rescue!
 - ▶ They cover uninsured for addiction treatment
- ▶ He called us to say he was ready to get clean
- ▶ Currently in treatment

Case Study #4

- ▶ 56 y/o male
- ▶ Constant triggers/drug dealers outside his door
- ▶ Issues with insurance coverage
 - ▶ Couldn't have managed on his own
- ▶ Initially unresolved but addressed next day
- ▶ Transported via Lyft to CMS next day
