Subject: Support for File #241777

Dear Ald Bauman,

I write in support of file 24177 in which the Department of City Development would consider the purchase of the 30th St rail line.

As a regular bike commuter, I've come to understand we have pretty decent east-west connections in this city for cyclists, but we are weak north-south. Though not part of my regular route, this corridor cuts through ZIP codes where pedestrians and cyclists experience a disproportionate amount of car traffic-related violence. I'd like for riders and walkers in this part of the city to enjoy the same kind of connection I do.

The corridor is also a gem of an opportunity for improved north-south public transit. City ownership opens a lot of possibilities here.

Thanks for your attention.
