Re: Support for Rezoning 2 Multi-Family Lots Consistent with Children's Wisconsin Forest Home Clinic for Parking Lot Expansion

Dear President Pérez, Executive Director Bush, and BID 4 Directors:

We are writing to express our support for rezoning and parking lot expansion at the Children's Wisconsin Forest Home Clinic. This state-of-the-art clinic offers vital services to a community with the highest density of children in the state of Wisconsin. Accessible, quality healthcare improves children's overall well-being, and increased parking capacity will help families arrive on-time and safely to their appointments.

We endorse Children's Wisconsin's rezoning request to allow for the addition of 25 parking stalls through the purchase of 2 adjacent multi-family properties.

Access to specialty and urgent healthcare services at the Children's Wisconsin Forest Home Clinic aligns with MPL's vision to build healthy families and vibrant neighborhoods – the foundation of a strong Milwaukee. The Milwaukee Public Library Foundation provides essential support to MPL and helps it remain responsive to community needs. We encourage your support for the parking expansion project.

Sincerely,

Joan Johnson
Library Director

Ryan Daniels
Executive Director, MPL Foundation
