Milwaukee Lumber CO.
2239 n13

To whom it may concern City of Milwaukee

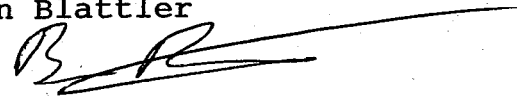

on Feb, 19 2002 we had a incedent at the place of business located at 2239 n13 the police were called becuse i was protecti ing my self with a shotgun be cuse these 6-7 people were trying cause me personal harm and rob me .

well when the police arive they arest me emeditly and wisk me off to jail negilace only take satments form the people that a are robbing me. while they were putting hand cuffs on I said just lock the building up and that is it . appoxematly 6-7 hours later they have me fill out a satment and i ask them did you lock up ansew no we cannot shut down that business.

becuse of all them police offercers that were there not one siad this is probly a civile matter and we are not going to get invoved and with their neglagece gave these criminals all . the ~~fact~~ today they criminals striped my shop of almost 100,000.00 of tools and manufactuing equipment and finished mater ial but the other neglagece is the fact that the poicle let Mr. Rossey claim that that was his place of business so i cannot return for 117 days.

Total 390,000.00

Brian Blattler

Dear Brian;

We consume approximately 25,000 board feet of pallet boards per Month. We currently spend \$18,000 a month on pallet wood. We would like To purchase from a local distributor. We are looking into Hardwood molding sale to expand our operation.

THANK YOU

Brian Blattler
Milwaukee Lumber Co.
2239 N. 13th Street
Milwaukee, WI 53210

Dear Brian;

Thank you for the price and delivery information on KD Oak lumber from you mill in Milwaukee.

As we discussed, our customer base is made up of dealers and cabinet shops that depend on us for continuous and consistent supply of quality products. Because it is critical that supply and quality remain constant over the long term it is necessary when selecting vendors that they can assure us that have the capability to meet our needs. Our best estimate on quantity requirements appears to be 25,000 B.F. monthly during the upcoming months. While long term growth is difficult to measure, in the short term we need your assurance of both the supply and quality availability before a program can begin. If our requirements cannot be met through Milwaukee Lumber we must seek another vendor with those capabilities.

Thank you again for the information provided, I am hopeful you are able to work through the production issues currently limiting supply. As always, we prefer to work with local vendors and remain confident this could be a good program for both parties if it can be implemented.

Sincerely,

Larry L. Hansen
