Re: C.I. File No. 1068-2013-1851

This letter is an appeal to the City of Milwaukee's denial of my claim regarding a broken tree branch that struck my vehicle at 3900 N. 80<sup>th</sup> street. I have included photographs of the incident with this letter. This should help clarify the situation. When the phone call was placed with the city, we were told to take pictures of the broken branch while still on the vehicle before the branch was removed, which we did. After pictures were taken, the branch was removed. I eventually had the branch removed then placed the vehicle on the parking slab approximately 50 feet away from the area where the incident occurred. The vehicle was still in plain view of any crew that would have responded. I had no desire to leave the vehicle with the branch on it in the street in that condition for any length of time. The letter from the City seems to indicate that I had to leave the vehicle on the street, untouched with the branch on the vehicle for the Forestry Crew to view. This is likely why the letter stated that the crew reported no damage. If this was not the intention of the letter from the City, only that there was no visual evidence of the branch damaging the vehicle, then the included pictures should quickly clarify the situation. As stated earlier, the branch and the vehicle had already been moved to the pavement when the Forestry Crew responded, but not before pictures were taken.
