---

We feel that community living arrangements, Adult Family Homes, and Shelter Care Facilities in the City of Milwaukee should be divided throughout the city of Milwaukee. We have noticed that there are very few facilities south of Wisconsin Avenue. We don't need any more of these facilities on the northside of Milwaukee. Please forward this information to Zoning, Neighborhoods and Development Committee.

Sincerely

Richard & Claudette Holloway

Alderman Davis

I know that we can't discriminate against the disabled persons of these Community Living and Shelter Care Facilities in our neighborhoods. So why can't we do the same thing as we do for taverns, that is the Consecration issue. In looking at the map dated Jan 2006 it sure seems that Consecration is a valid point in this issue. If it goes to the board of Zoning appeals because it can't meet the 2,500 feet standard then maybe the consecration can be used. Just a thought.

Ald. Joe Davis, Sr.

We strongly support you efforts to **stop** the increase of group home activity in our neighborhood. We feel there is already an inordinately high volume of these sites already. As these locations pose a great risk to the safety of our neighborhoods, we strongly oppose any further proliferation here in the future.

Alderman Davis, I have great concerns about the number of group homes in my neighborhood. I can see that they are disproportionately located on the North side of Milwaukee. I understand that the State of Wisconsin will be responsible for inspection these sites and that is not enough control. I believe that a city review board should be responsible for inspections, because if homes located in the city will contain city residents. There are people requiring group home care from all areas of the city, therefore there should be an even distribution of homes thruout the city. Thank you for giving this matter the such careful consideration. Sincerely, Virginia Weber 4162 n. 51st blvd. 414-303-5394
