Subject: Support of Housing Element - CPC: Monday, 3 June 2025
Date: Friday, May 30, 2025 11:44:17 AM

Hello City Plan Commissioners,

As a City of Milwaukee resident of District 6 and Business Improvement District board chair in District 3, I am voicing my support for the Department of City Development's Housing Element zoning amendment. Housing Element is urgently needed to make housing more accessible, affordable, and safer in every neighborhood by:

- Increasing housing types
- Additional home repair programs
- Emphasizing home ownership
- Increasing economic resiliency
- Increasing walkability
- Supporting local businesses with density
- Committing to anti-displacement

Housing Element takes important steps to give renters and homebuyers more leverage, power, and flexibility. I sincerely hope you feel the same. I urge you to support the Housing Element zoning amendment.

Thank you,

Joey Wisniewski
Senior Development Coordinator
