Subject: White House Sign mock up

Tim,

Very excited to have things progressing. I have attached two mock ups for the sign at the White House. My friend David who will be painting it is very talented with lettering. We selected an old English style to match with the era of the building. I plan to have the lettering be white and the background dark green to match the existing trim. (Or white background dark green lettering; I want the contrast)The sign will be the same on both sides. Please let me know what your thoughts are and if you have any questions.

Thank you,

Allison
