Subject: Vehicle Pursuit

Great morning,

I am unable to be present on Thursday, May 2nd at the Fire and Police Commission meeting Thursday evening. With there being so much controversy and back and forth from the community I think the Fire and Police Commission should consider under this new administration hosting public hearings to really discuss the in's and out's of the Vehicle Pursuit Policy SOP 660. There has been discussion about the location and time of the Fire and Police Commission meetings not being a convenient time or being in a convenient location, this idea of hosting a space to discuss this policy at a different time and location would be worth considering again since the public never heard back about alternate locations to host the meetings.

Thank you,

--

"No movement can survive unless it is constantly growing and changing with the times. If it isn't growing, if it's stagnant, and without the support of the people, no movement for liberation can exist, no matter how correct its analysis of the situation is. That's why political work and organizing are so important. Unless you are addressing the issues people are concerned about and contributing positive direction, they'll never support you."
Assata Shakur, Assata: An Autobiography
