Subject: NO DATA CENTER IN MIDTOWN! DATA CENTER MORATORIUM NOW!
Date: Monday, June 29, 2026 10:35:54 AM

[Some people who received this message don't often get email from tashatodd_00@yahoo.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

My name is Natasha, I am a nurse and a home-owning citizen who lives in district 5.

I am emailing with my opposition to the proposal for Midtown Center. I don't care what you call this "data center", I do not want a "data center" anywhere near my home or neighborhood. I am asking for moratorium on data centers in Milwaukee to prevent these corporations from further exploiting this black and brown community!

The lack of transparency alone regarding the company behind this "data center" is unacceptable. Thank goodness for the community activists who were able to find out that this developer is Trent Overhue. I've reviewed his previous developments and this has deepened my outrage regarding this proposal.

I also want to express that I am against the proposal for the storage center as well. Neither the "data center" or storage facility will provide many long term jobs for people in this community. Therefore, they will not help the community. In actuality the "data center" will harm the community. We should not have to bargain with large corporations to get the needs of the community met. There should be no strings attached in order to get the neighborhood a new library, community center, etc.

I hope you all actually listen to the communities outrage and do not move forward with this proposal, but instead enact a moratorium on data centers in Milwaukee.
