Hello Chris,

Please add this to the record for file #241394:

Support for Gap Funding for Housing Projects in Metcalfe Park

Metcalfe Park Community Bridges is in full support of the proposed funds to provide gap funding for housing projects in the Metcalfe Park neighborhood. This investment is not only necessary it is urgent. Our community has long endured the impacts of historical disinvestment, aging housing stock, and limited access to quality, affordable homeownership opportunities.

Allocating these funds will directly contribute to the revitalization of Metcalfe Park by transforming, beautifying, and repairing homes. It will also provide much-needed stability through increased access to homeownership opportunities.

We urge the committee to move forward with this funding and continue working in partnership with residents and grassroots organizations to ensure sustainable impact.

Respectfully,
Metcalfe Park Community Bridges Inc,
