On December 18, 2019, the Board of Fire and Police Commissioners adopted Chief Morales's proposed modifications to SOP 130 (Reviewed/Approved by Director Regina Howard on December 17, 2019) in FPC 19081, as amended, with the following revisions to SOP 130.25(E)2 and 130.30(E):

SOP 130.25(E)2 is amended to read:

2. OMAP shall make a recommendation for approval or denial of the certification to the inspector of the Administration Bureau as soon as possible, but not more than 90 days from the date of receipt of request. OMAP shall meet with the inspector to explain the delay of any request that is not addressed within 90 days of receipt and the requestor will be notified of the reason for the delay. If the requestor is >>STRICKEN (under an order of) STRICKEN<< in deportation proceedings, the department will attempt to resolve the request within 30 days.

SOP 130.30(E) is amended to read:

E. Police members shall not detain or arrest an individual solely for a suspected violation of immigration law. For purposes of SOP 130, an administrative warrant refers to administrative removal warrants used by ICE officers to arrest persons who have committed civil immigration violations. An administrative warrant is not a criminal warrant signed by a judge, and it shall not be used by any department members as the basis to detain or arrest a person. Department members may cooperate with ICE to detain or arrest a person, provide notification of any individual's release, or provide personal information including home or work addresses only when a judicial warrant is presented and one of the following applies:

1. The individual is engaged in or is suspected of terrorism or espionage;
2. The individual is reasonably suspected of participating in a transnational criminal street gang;
3. The individual is arrested for any violent felony;
4. The individual is arrested for a sexual offense involving a minor as a victim;
5. The individual is a previously deported felon;
6. Any other serious felony which demonstrates the subject is a safety threat to the population at large.
