Subject: Further revised mailing policy

After consultation with several chairmen this afternoon, I have drafted the attached substitute 2 to bring to the table at Steering and Rules. Instead of limiting each council member to 2 district-wide newsletters annually with a cap of \$15,000 total cost, it simply provides that each council member will have \$15,000 annually for production and distribution of newsletters (no maximum number specified). This would allow for the production of newsletters targeted to only certain areas of a district, or only certain persons, and thus maybe allowing for more than 2 to be produced and mailed with the \$15,000. This was suggested by Ald. Davis and agreed to by Aids. Hines, Murphy and D'Amato.
