Subject: Milwaukee Climate & Equity Plan

The Honorable Alderman Robert Bauman,

I am writing to urge you to support the Milwaukee Climate & Equity Plan. Both objectives—reducing greenhouse gas emissions and improving racial and economic equity are critically important. Both objectives will face stiff head winds. Decarbonizing electricity generation will be gradual based on economic and engineering realities; improving racial and economic equity will depend on bipartisan political support at every level of government. The plan is realistic in taking an all-of-the-above approach of 10 big ideas and it will move us in the right direction.

My very best regards,

Carol Diggelman, PhD, Emerita Professor, Milwaukee School of Engineering
