Re: FN 171864 – 6000 S. 6th Street

Dear: City Plan Commission

Greg Schaal, is requesting that the north portion of the site is rezoned to Industrial Light (IL1). I am opposed to this change in zoning. I believe this could be a possible hazard to the airport being this land is so close to the airport. Also there are children and families from the trailer park on 6th and College that walk in that area. I don't believe this type of use has any business being allowed in our community. I believe the zoning should remain residential. Once again I am opposed to changing the zoning of this parcel.

Sincerely,

Bruce Krogstad
