Project/Program Title: HS STAC WiWATCH Server 2017

Grantor Agency: Wisconsin Emergency Management

Grant Application Date: 10/20/2017   **Anticipated Award Date:** 11/01/2017

Please provide the following information:

1.   Description of Grant Project/Program (Include Target Locations and Populations):
This grant opportunity will provide funds to purchase a new server for the WiWATCH Portal.

2.   Relationship to City-wide Strategic Goals and Departmental Objectives:
Through utilization of the Nationwide Suspicious Activity Reporting Initiative (NSI), the Southeastern Threat Analysis Center (STAC) can utilize an "all crimes" approach to preventing crime and terrorism. The NSI provides a national capability to gather, document, process, analyze, and share information among various state, local, tribal, and federal agencies. The general public through the online WiWATCH Portal submits their criminal or terrorist activity observations through the Suspicious Activity Report (SAR).
The server houses the Southeastern Threat Analysis Center (STAC) and Wisconsin Statewide Intelligence Center (WSIC) contact information and is used by citizens to report suspicious activity electronically by accessing the website.

3.   Need for Grant Funds and Impact on Other Departmental Operations (Applies only to Programs):
The current STAC server is outdated and experiencing technical issues. Also provided is the "See Something, Say Something" information for the businesses and citizens for the entire State of Wisconsin, not just the STAC area of responsibility.

4.   Results Measurement/Progress Report (Applies only to Programs):
Regular progress reports will be required, and the schedule for such reports will be included in the grant award materials, should funds be awarded.

5. Grant Period, Timetable and Program Phase-out Plan:
November 1, 2017 - May 30, 2018

6.   Provide a List of Subgrantees:
