Hello,

I'm writing today in support of the Hackett Ave project.

This project adds dense housing in a wonderful neighborhood with great walkability, transit, and neighborhood amenities. It's a win for local businesses in the Downer Ave corridor, a win for employers like the hospital whose staff need places to live in proximity to their workplace, and a win for city coffers. Further, it provides a neighborhood Institution (St Mark's) with the funds to be able to continue to serve it's community with an accessible parish hall.

This is exactly the kind of infill development that we need to keep growing our city, and I strongly encourage the commission to support the rezoning needed to make it a reality.

Further, I ask that the commission not impose any additional parking requirements,, which would make these apartments less affordable, nor reduce the number of units. Density is what makes our neighborhoods vibrant and helps them to thrive.

Thank you,

Anna Bailliekova  
Milwaukee resident
