## 5. DESCRIPTION OF PROJECT:

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached.

We would like to remove two dying Maple trees on the property. They are not original to the property and they are not champion trees. Both trees started dying after raised gardens were created around them, which probably resulted in stress to the roots. The top portion of the branches are dead and brittle and we are concerned about any harm that could occur if the branches snap with harsh weather. We would like to remove them and plant replacement trees before winter.
