RE: "Title Only" Grant
Resolutions

Dear Mr. Zielinski:

This is to provide you with background information on the grant resolutions that the Health Department would like to be introduced:

Women Infant and Childrens' Grant - This is continuation funding provided by the U.S. Department of Agriculture through the State of Wisconsin Division of Health and Family Services. The purpose of the program is to prevent nutrition-related health problems and to improve the status of low-income, at-risk pregnant or breast-feeding infants and children up to the age of five years. There will be changes to the Positions Ordinance as part of this file.

Municipal Health Services Program - Funded by the HealthCare Finance Administration, U.S. Department of Health and Human Services, Health Care Finance Administration, this is also continuation funding. The program waives certain Medicare reimbursement limitations for Medicare beneficiaries. The program pays for services typically not covered by regular Medicare and reimburses health care providers 100% of cost.

Sexually Transmitted Diseases (STD) Grant - This resolution amends Common Council File 001561 which approved the application, expenditure and funding of the STD Grant. The file is being amending because of an increase in funding.

As always, thank you for your consideration of these "title only" resolutions. The files will be filled as soon as possible.

Sincerely,

Janet Nell
Administrative Specialist-Sr.
