and **“Restoration, rehabilitation, and maintenance of Pendarvis as related to construction techniques and materials and the evolving visitor experience for the historic property”** – Charlie Quagliana

2:15 PM **“Walk and Talk Tour”** – Charlie Quagliana and Bethany Brander. For this specially designed tour, the closed houses will be opened for us to see a Windows & Doors restoration project in progress and another house that has been restored. All these stone cottages and outbuildings formed an early neighborhood from 1841-1845. We are fortunate to witness the work and progress of restoration with an expert explaining the process to us. The best way to learn is to experience it firsthand. What a wonderful way to end a WAHPC conference!”
