Subject: DATA CENTER
Date: Friday, May 15, 2026 11:37:08 AM

Some people who received this message don't often get email from ka7701@gmail.com. [Learn why this is important](#)

For the Safety of Humanity a data center with its frequencies and ability to cause cancer, pollute water and more, should not be put in the middle of a community where there are homes, schools, libraries, and just places where people frequently go or live. Furthermore the cost of living is already hard and the ENERGY BILLS Are going to sky rocket which could cause further harm to how a person has to live. If the Data Center is something that must happen for mankind's sake can it be put in a unpopulated area to be isolated.
