To the Public Improvements Committee

Subject: Street Lighting
Marquette Interchange Reconstruction
Core Contract

Dear Honorable Members:

Reconstruction of the Marquette Interchange will include modifications to local streets. Due to the magnitude of this project, it is being divided into phases. This phase, known as the Core Contract, will affect the area bounded by North 13th Street to North Plankinton Avenue and West St. Paul Avenue to West Wells Street and adjoining streets.

Street Lighting work being done in conjunction with this project will include installing interim lighting, the installation of permanent lighting improvements and the removal of the interim lighting. Funding for the street lighting work is provided by the Wisconsin Department of Transportation (WisDOT) by means of an Agreed Unit Price (AUP) contract.

One hundred percent of the total cost will be funded by WisDOT.

The attached resolution authorizes and directs the Commissioner of Public Works to execute an AUP contract with WisDOT that allows City forces to install and modify the traffic control signals and signs in conjunction with the work in the area bounded by North 13th Street to North Plankinton Avenue and West St. Paul Avenue to West Wells Street and adjoining streets.

Very truly yours,

Jeffrey S. Polenske, P.E.
City Engineer

Jeffrey J. Mantes
Commissioner of Public Works
