

Cases Currently Active per Milwaukee County Clerk of Circuit Court Records

Note: The Clerk of Circuit Court’s Office has interpreted the phrase “pending cases” broadly to include **ALL** Milwaukee County cases that are currently active: in other words, all cases coded within the state’s CCAP system as “open,” “reopened” (a rarely used classification), and “filed only.” The “open” status include cases in which warrants have been issued (i.e. the values under “Number of Cases Active” is the total sum of all cases, *including* those identified in the fourth column, “Number of Cases Coded as ‘Warrant Issued’”). We have analyzed this data in order to provide full disclosure and clarification in response to this inquiry.

Please note also that cases are filed on a frequent basis, resulting in minute-by-minute changes to the numbers extractable from the state’s CCAP system. The values in the below table were extracted from CCAP between 3:45 p.m. and 4:35 p.m. on Wednesday, January 25 and are accurate only as of this particular timeframe.
