Subject: Lorentz - Harris Pharmacy Building!

Please save this building, Milwaukee has a rich history in this architecture. Friends of mine from both New York City and San Francisco who have visited Milwaukee, were in awe of it's beautiful Germanic and Polish architecture and roots. They both expressed how they have never seen so much beautiful architecture in any city in America.

They loved it. We of course are a bit immune to it, but they just thought Milwaukee was amazing in that respect.

Also if they tear downtime building, it will become another ugly cement or tar lot, or a goofy children outdoor playground.

Please try to preserve the rich heritage Milwaukee has!
