Description and Legal Basis

1. The Tax Stabilization Fund (TSF) is the portion of the unrestricted general fund balance not designated for a specific purpose.
2. Withdrawal from the TSF serves as a revenue item in the budget, and offsets the amount of property tax levy that would otherwise be required.
3. State law permits cities of the first class to establish a TSF. The City of Milwaukee, in establishing a TSF, set forth the following purposes and objectives for the fund in section 304-29 of the Milwaukee Code:
 - To assist in stabilizing the city's tax rate "within reasonable limits" from year to year.

- To protect the city and its citizens from fluctuations in the City property tax rate “which can result from erratic variations in non-property tax revenues”.
 - To improve the city’s financial planning ability.
 - To better enable the city to comply with state levy limits.
4. The primary **funding sources** for the TSF established by Section 304-29 of the Milwaukee Code are:
- Revenue surpluses, i.e., the difference between estimated revenues and the actual receipts.
 - Unexpected appropriations not carried-over, except from internal service funds.
 - Any internal service fund retained earnings that exceed 5% of that fund’s budget.
