

July 9, 2004

Chief William Wendlandt
Milwaukee Fire Department
711 West Wells Street
Milwaukee, WI 53233

Dear Chief Wendlandt:

It is the intent of the Wisconsin State Laboratory of Hygiene to provide to the Milwaukee Fire Department a SensIR TravelIR infrared spectrophotometer. This piece of equipment can be used by the Milwaukee Regional HazMat team to aid in the identification of chemicals in solids and liquids. I will be in touch with you to determine a date and time that is convenient for the transfer of this equipment. We look forward to working with you and your team with any assistance that we may be able to provide in the operation and use of this equipment. If you have any questions, don't hesitate to get in touch with me.

Sincerely,

David Degenhardt
Chemical Emergency Response Coordinator
Wisconsin State Laboratory of Hygiene
