RE: "Title Only" Grant
Resolutions

Dear Mr. Zielinski:

This is to provide you with background information on the grant resolutions that the Health Department would like to be introduced:

Environmental Capacity Grant - This is new funding provided by the State of Wisconsin Division of Health and Family Services. The program will create a local environmental health tracking system that combines environmental exposures or complaints with disease in the community.

Urban Air Toxics Grant - Funded by the U.S. Environmental Protection Agency, this new grant will facilitate a coalition of government, industry and community partners in developing and promoting strategies that focus primarily on voluntary reduction of air toxics within the urban environment. This file contains additions to the Positions Ordinance.

As always, thank you for your consideration of these "title only" resolutions. The files will be filled as soon as possible.

Sincerely,

Janet Nell
Administrative Specialist-Sr.
