Subject: Forest Home library

Hello,

I used to live near 26th and Scott street and I would often use the forest home library. I am also a big fan of mid century architecture. In fact, we bought our new home specifically because it is mid-mod! I would support historic designation of the library. We tear down way too many buildings and there aren't many mid century examples on the near south side. It would be great if someone could find a way to preserve what is architecturally significant about the library building and also do a sensitive addition to make it usable for them.
