Jim, Ald. Rainey wanted me to forward this to you. This information can be used as proof of the need to deal with the traffic calming initiative that is being discussed in the Capitol, 51st, Fond Du Lac area.

Thank You in advance,

Sherman T. Morton
Legislative Assistant for
Alderman Khalif Rainey
7th District, Milwaukee

Sherman,

I received a voicemail from Captain Turcinovic, 7th District, which stated that he does drive the area frequently and he has noticed that cars get stuck in traffic making the turn off Fond du Lac onto Capitol Drive. He said that he thinks the drivers get frustrated when stuck in traffic resulting in speeding. He suggested that perhaps the City Engineer's staff could lengthen the time for the traffic lights.

I hope to hear back from Rollin Bertran regarding the suggestion or any other comments that may shed light on the problem.

Sherman,

I contacted the 7th District Milwaukee Police Department and spoke with Officer Capelle. **He informed me that there has been 48 accidents on Capitol Drive from Sherman Boulevard to 50th/51st Street since April 1st.** I am copying Rollin Bertran, Engineer In Charge, Transportation Operations, on the email to see if he can assign one of his staff to investigate and make recommendations to try to reduce speeding traffic. I am also copying 7th District Captain Boris Turcinovic, Milwaukee Police Department.

Hopefully Mr. Bertran's staff can make some suggestions to encourage motorists to slow down. There may not be a need to meet regarding the matter. I will keep you posted.

Subject: Accisents on Capitol Dr.

Good Afternoon all,

Can we see about putting some “ Upcoming Construction” or “ Drive Careful” “ Slow Down” signs in the Sherman Blvd. to 4600 to 5000 blocks of Capitol Dr. Due to the Fond Du Lac work, there are about 1 to 3 accidents happening a day in the area. Maybe we need to reevaluate the timing of the lights in the area also.

Thank You in advance,

Sherman T. Morton
