Subject: Request To Use Glass Block Windows

To Whom It May Concern,

I am writing to request consideration to approve the installation of three glass block windows at basement level to replace three pane windows at 2605 N. Summit Ave. These windows are at the west rear and north side of the building. We have identified properties in Northpoint with historic district that have glass block basement windows examples: 2705 E. Bradford faces E. Bradford. Our proposed locations do not face the street.

We appreciate your time and consideration.

Thank you,

Agnes & James Stearns
