City Service Commission

200 East Wells Street

Rm 706

Milwaukee, WI 53202-3515

City Service Commission,

I am appealing my 30 day suspension. It was delivered to my home by the USPS on Saturday, November 13, 2021.

I did understand Rule, Section 12, Paragraph Q of the City Service Rules.

I believe I did provide reasonable accommodation in the timing provided. While not well presented, the evidence is true.

I am an outstanding employee and an asset to the City. While most stayed home throughout the pandemic, I "held the fort" as it were as the senior Lead in Parking. I was amongst my coworkers daily, maintaining social distancing, masking and hygienic procedures for handling of equipment. I also interacted with the general public daily keeping proper safety measures. Not once was I sick from Covid-19 nor anything else.

The reason for the City rule is completely valid to me, the health and safety of all parties. However, while I support it, it does not factor my inability to remain healthy if I receive the vaccine.

The weekly Covid-19 test is a reasonable measure for me to take to prove that I should stay fully employed by the City of Milwaukee. I am in the process of rewording my exemption request to be fully transparent and provide the proof necessary for the City to grant the exemption.

Thank you,

A handwritten signature in black ink that reads "Margaret Davis".
