Mr. Grant F. Langley
City Attorney

I am appealing your decision
(denial) in regards to my claim
of \$ 343.20 against the city of Milw.
This is a request for a hearing.
C.I. File # D 10-5-77

Adjuter

RONALD D. LEONHARDT
CITY CLERK

City Clerk / Claims
200 E. Wells St. Room 200
Milw Wi 53202-3569

On 11-12-09; on that morning,
I was traveling south bound on 28th
street between Kilbourn and Wells St.
And, although I was only going 25 miles/hr.,
I hit this huge hump in the road. I
didn't see this hump, it blended in as
road and went from curb to curb. My
van bottomed out really hard. I got
out and viewed the scene. There was
chunks of wet dirt over this hump. The
hump apparently was a "SPEED BUMP".
This hump was approximately 18" high, was
not painted or striped. There was no
posted signs or warnings in either direction
of this hump.

I notified the city of this safety
hazard. I could not believe that the height
of these speed bumps were legal, and
not considered unsafe.

My van was making noises and
acting differently.

over

I brought my van in to be repaired,
fitting that speed bump ~~book~~ broke
(2) brackets on my rear springs and
covered the brake line.

(Cost for van repair \$343.20.)

I want the city to reimburse me
for my van repair of \$343.20.

P.S.

When I notified
the city, I had
talked to Angela
286-8282. She
had Bruce Ballisteri
return my call

Knollenberg, David
David Knollenberg
6759W Medford Av.
Milw WI 53218
414-527-0114

and Mr. Ballisteri said he would contact
Arnold Boyd-(City Construction). He said that
sub-contractors did the job of these speed
bumps and that they may have missed putting
up the required safety warnings.
