PLEASE NOTE: YOUR APPLICATION CANNOT BE PROCESSED UNLESS
BOTH PAGES OF THIS FORM ARE PROPERLY COMPLETED
AND SIGNED.

## 5. DESCRIPTION OF PROJECT:

Tell us what you want to do. Describe all proposed work including materials, design, and dimensions. Additional pages may be attached via email.

This building was vandalized multiple times within one week. The building owner trying to protect his business went ahead and removed the existing facade and rebuild it with more durable and vandal-proof materials.

A mistake was made, no drawings were submitted to obtain a permit for the modification.

The submittal we are now proposing to the Historic Preservation Commission is to correct that mistake. When we receive the Certificate of Appropriateness from the Commission, we will submit the drawings to the city for plan approval and obtain a building permit.

The drawings included with this submittal are a site plan, floor plan and proposed elevations, along with the call out of the proposed materials on the elevations.

Our scope is to keep the same materials that were on the original building. We are proposing the storefront and the granite finish on the bottom as the original.

The new wall construction will be designed to satisfy existing building code.

The attached drawings and pictures should have all the information requested for the submittal.
