Dear Planning Commission;

By way of introduction, my spouse Gina and I are single family homeowners on Milwaukee's east side. Several years ago we had a single family home on the 2700 block of East Belleview Avenue, only a block and a half from the proposed Hackett Avenue apartment building. Between houses, we also lived in an apartment a few blocks away.. We lived in the Belleview house for over four years. In total, we lived in the East side area for over 6 years.

We strongly support rezoning the parcel for the Hackett Avenue proposal from RM3 to RM6. We feel greater density is a positive for the area.

- First of all, people need places to live.
- Secondly, the businesses on Downer will benefit.
- Third, additional families will mean additional students for the nearby elementary and high school-these students can walk or bike to school.
- Fourth, the apartment project will increase urban density, which is good for the environment and good for walkability.
- Fifth, the proposal will help meet the goals of the Parish.
- Sixth, the proposal will help raise Milwaukee's tax revenues.

Thank you for your work on examining this important project.

Regards,

Mark and Gina Haag
