I support the construction of the proposed apartment building on Hackett Avenue for the following reasons:

- +It is attractive and fits in with the neighborhood.
- +It is accessible for those who are mobility impaired. (I moved from my bungalow--finding an accessible apartment on the east side is not easy!)
- +It is in a good location for employees of the large Ascension Health complex and UWM with good access to bus lines and everyday shopping. (I would expect the residents might provide more business for the Downer Avenue merchants, an added plus.)

I am a member of St. Mark's church as well as an East Side resident. Of course, many of us parishioners wish we could just replace our parish hall without giving up the empty lot. But there is no endowment, no pot of money (nor any hopes of raising one) that could pay for the project.

Thank you for your consideration.
