As a city homeowner and taxpayer, and as someone who frequents the Downer Ave. business district, I strongly support this project. This type of increased development is needed to further increase density and add to the tax base, as well as grow the overall housing supply which will help to make housing broadly more affordable for all city residents. Moreover, this design fits the context of the neighborhood, as it is comparable to other apartment buildings within just blocks of the proposed site.

Thank you for your consideration.
