## **In Support of File No. 220401**

Commission,

A quick note of support for the St. Mark's project. It is a great way to use an underutilized piece of property. The 55 new units will be a boost to the neighborhood and help support local business by increasing density.

The design appears to fit into the fabric of the neighborhood and it looks great.

Also as a former parishioner at St. Mark's, I believe it gives them some relief from repairing a uninteresting building.

Thank you and I hope you support the file #220401.
