Hello,

To Whom it May Concern,

As a long time East Side resident and a realtor, I am writing to let you know how important I believe the new development is next to St Mark's Church on Hackett Ave.

This type of density and use is good for the neighborhood and the entire Downer Ave district. It will provide housing for people of diverse incomes and for people in the community and will improve safety and security for all. The right change is a good thing. This is the right change.

Onward!

Best,

Molly Gallagher
