Subject: Hackett Avenue proposed 55-unit apartment building

Some people who received this message don't often get email from akehoe@uwm.edu. [Learn why this is important](#)

I have lived, and paid property taxes, at 3014 N. Shepard Avenue for 54 years. I walk to shop regularly, at least twice a week, at the Downer Avenue shops and have an account with the Associated Bank branch across the street from St. Marks Church. The parcel of land adjacent to St. Marks Church is a significant aspect of the Downer Avenue vista.

If St. Marks wants to build an apartment building not more than three (3) storeys tall, we could tolerate that. To build higher than three storeys would be an abomination, destroying the attraction of the Downer Avenue business district and severely threatening its continuing existence.

Please vote AGAINST St. Marks' proposal for re-zoning of this parcel.

Sincerely, Alice Kehoe (and local voting family)

Please NOTE: since last upgrade, Mail duplicates every email. I try to delete the duplicates but often they go out too fast. Sorry for the confusion!
