Hello,

My name is Nate Plotkin, and I am the owner & operator of WhyMKE, a development-based Instagram account focused on creating awareness for developments occurring in the Milwaukee Area.

I am here to state that the Hackett Ave apartment proposal on the East Side is a great development, and many, many others feel the same way.

Not continuing forward with this proposal would be detrimental to the East Side & Downer Ave district, would cause harm to surrounding districts, and would completely contradict the city's goal of trying to increase the population.

Not to mention, not allowing this neighborhood to grow and allow new citizens to move in, will continue to enforce the idea of segregation throughout Milwaukee.

There is no reason for this development to be questioned right now.

It is good for the neighborhood, it is good for the East Side, and overall it is good for the city.

Most of all, it will be good for the church, that has been an institution in that neighborhood for over 100 years, and will most likely have to close down or move if it's unable to move forward with this development.

Don't make a mistake by not moving forward with this project.

Sincerely,
Nate Plotkin
