Subject:

To whom it may concern:

I wanted to express my support of Central City Cyber School (hereafter "CCCS") as a parent of a student. My son Reece Moses has been attending CCCS since he was in K5. My niece, nephew and referred others have also attended CCCS. I've always been happy with CCCS overall. The core staff such as Mrs. Humphrey, Mrs. Bui, Mr. Williams, Mrs. Jiles and Mrs. Ramsey have always set a high but attainable bar for the school. As a parent, the atmosphere that my child is in the majority of his day, is extremely important to me. I've never felt when dropping Reece off that he'd be in danger.

I've come to really appreciate all of the extra things CCCS does for our children such as "Family Night" and "Game Night". All of the staff seem to really enjoy giving of their additional time to make sure the kids have a good time. Class Dojo has also been a hot commodity for me. I appreciate being able to get real time updates throughout the day on my son's progress. CCCS has been like a 2nd family to mine over the years. Academically, I feel like Reece has been doing well and is given the time and necessary tools to excel. Even when Reece has to be redirected I feel that it's done with love and genuine care. I've witnessed first hand the different changes implemented over the years and I appreciate them all. My opinion on change is that it means the teachers are taking the time to look at what works and what doesn't instead of just relying on how things have always been done. I'm glad my son attends THIS school.

I can't speak highly enough of CCCS, the family atmosphere and attention to our children has been extremely appreciated over the years. I couldn't imagine Reece in better hands education wise.

Thank you,

Proud Parent of CCCS student,

Brooke Fenton
