The National Register of Historic Places is the Nation's official list of historic places worthy of preservation. Since its inception in 1966, the National Park Service has designated more than 80,000 listings; approximately 2400 are in Wisconsin. The register is maintained by the National Park Service in the U.S. Department of the Interior.

The State Register is Wisconsin's official list of state properties determined to be significant to Wisconsin's heritage. The State Historic Preservation Office at the Wisconsin Historical Society administers both the National Register and State Register in Wisconsin.
