To The City Plan Commission ~

As a resident of the far northwest side of Milwaukee, since 1982, I am asking you to deny the request to change the zoning to allow the development of the juvenile correctional facility at 7930 W. Clinton Ave.

There is nothing about having a Type 1 Prison Facility, built in your neighborhood, that says success. Our community on the far northwest side of Milwaukee has taken numerous hits and we are exhausted from City Hall not supporting us. We've seen our businesses close at an alarming rate and the business communities are having a difficult time getting employees to come into Milwaukee to work because of the perception of crime. That perception of crime may or may not be accurate but it is an enormous issue and our neighborhoods are suffering from it.

If you allow this Prison to move forward in getting built, do you really think we will see any future economic growth?

I ask that you vote no and show the residents in these neighborhoods that you support them.

Thank you

Liz Hammer
