

Memorandum of Understanding

Police Department 911 Dispatcher, 911 Telecommunicator, Emergency Communications Supervisor positions Transfer of Position Authority to the Department of Emergency Communications

An agreement between the Milwaukee Department of Emergency Communications (DEC) and the Milwaukee Police Department (MPD) for the transfer of Telecommunicator position authority, for the purposes of payroll processing, until a full DEC consolidation and transition of personnel, operations and management occurs.

1. It is agreed that in 2022 the new Department of Emergency Communications was stood-up and is developing their administrative and operations infrastructure for the purposes of consolidating all MFD and MPD emergency communications divisions into the DEC.
2. It is agreed that standing up a new department is new territory for the City and all involved. Finding solutions, adjusting, and making temporary workflows in each phase of the transition requires a strong collaborative team.
3. It is agreed that the MPD will transfer position authority of Telecommunicators within the emergency communications division for purposes of payroll processing by the DEC. MPD access levels to payroll will be retained until the transition of payroll is finalized.
4. It is agreed that the MPD will continue to maintain management oversight of personnel and operations until the consolidation and transition of MPD personnel, operations and management occurs to the DEC, with an anticipated time frame sometime during or before mid-year 2023.

Interim Director,
Department of Emergency Communications

Police Chief
Milwaukee Police Department
