Subject: Agenda item for NewLand Zoning

I am unable to attend the meeting about zoning discussions for NewLand with a change in zoning from 8-10 stories to 25 stories. The original proposal for this building caused concern for us with the increase in residential buildings and the lack of parking. However, to change the zoning to double previous plans, this is very undesirable and problematic.

As a resident, on Franklin Place, I strongly urge you to NOT change the zoning. I object to another large building changing the skyline in this area.
