Additional Tasks Related to 2% Local Sales Tax Revenue

In receiving revenue from the 2% local sales tax, the Comptroller's Financial Services Division will track receipts as they are received from the Wisconsin Department of Revenue. The office will complete forecasting, estimating and analysis of the budgets of forthcoming years. Meanwhile, the Accounting Section plans to perform additional disclosures of the financial statements through the Annual Comprehensive Financial Reports. The Comptroller's Office does not anticipate that this work will require extra staff members.

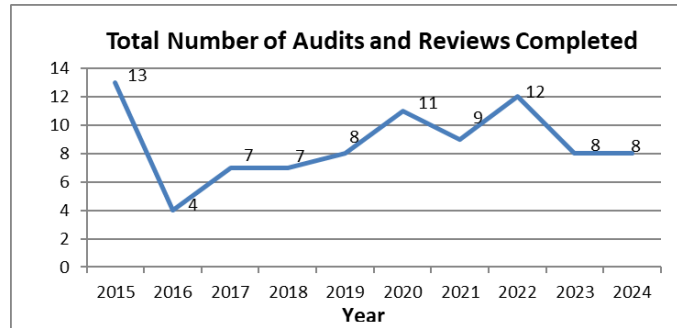

Bond Rating Downgrade

In May 2023, Fitch Ratings downgraded the City's credit rating from A to BBB+, which is a two-notch downgrade. The firm reported that the demotion reflects a "growing structural budgetary imbalance driven by statutory revenue-raising constraints, escalating municipal cost pressures, especially for pensions, and reliance on state shared revenue that has not kept pace with inflation." However, this downgrade occurred before the passage of the 2% City sales tax.

Although Standard and Poor Global didn't change its credit rating for Milwaukee, they did give the city a "negative outlook," meaning they could downgrade their rating of the City in the near future.

Promoting Equity and Inclusion

The Comptroller's Office created a Growth Strategy to address equity and inclusion with three foundational pillars: commitment, workforce, and community involvement. The department will review policies for biases and foster an environment for change. The Office is breaking employment barriers through outreach, training staff on equity and inclusion, and emphasizing the importance of community involvement. The Office is looking to improve communication with residents and has translated many financial reports to Spanish and Hmong.
