**Subject:** Against residential development

As An owner of Barefoot International and an investor in the River Works Industrial Park I want to strongly voice my opposition to any residential in this area. There are places for that and people for that. This city needs industry and work for people. Please listen to the business people who are making that work possible. Don't take away the work for people by giving another reason to move our companies or stop our companies. NOTE: Wisdom speaks...Listen to the manufactures in this industrial area and let them employ people. Also this is no place by no means by no stretch of any good vision for a Drug Clinic. Absolutely wrong. Thanks for listening and considering whats right, John Seipel Owner Barefoot International, 3879 N. Richards Street, Milwaukee, WI 53212
